  - Maharashtra State Board
  - 10th : 89.80 %

Achievements

- Top 10 Finalist among 180+ teams, IDS Hackathon organized by Yi (Young Indians), Nashik
- Top 30 Finalist among 200+ teams, Blockverse Hackathon organized by SNJB college, Chandwad
- Selected twice at Institute Level for Smart India Hackathon (SIH)

Co-Curricular Activities

- Secured an internship opportunity through the Eclipse Competition organized by DESOC Club
- Team Leader, Game Arena - led a team through project planning, task allocation, and development to deliver 3 complete games

Experience

Game Developer Intern (Hybrid) — *Feb 2026 – Aug 2027*

Anstric Games Private Limited

- Engineered **gameplay mechanics** and **player interaction** systems in **C# (Unity)** as part of a development team.
- Built reusable UI components and optimized **collision handling** for consistent frame performance.
- Diagnosed and resolved gameplay and **performance issues** through **systematic testing** and **debugging**.

Projects

LexisGraph – AI Legal Compliance Platform *(2026)* Live Github

- Built a **Neo4j**-based legal knowledge graph using **GraphRAG** to model entities, obligations, and relationships for compliance analysis.
- Implemented **NLP pipelines** for named entity recognition and relation extraction, and designed a graph-powered retrieval workflow to improve contextual legal search and compliance gap analysis.
- Tech: Python, Neo4j, GraphRAG, LLMs, FastAPI

NGO – Student Collaboration Platform *(2026)* Live Github

- Built a full-stack **MERN** platform with three distinct **auth roles** (student, NGO, admin), each with a dedicated dashboard.
- Developed the complete **event lifecycle** – NGOs create/manage campaigns, students discover, apply, and track application status in real time.
- Tech: React.js, Node.js, MongoDB

OrbitIQ – Space News & Astronomy *(2026)* Live Github

- Built a space news mobile application using **React Native (Expo)** with a responsive, native-feel interface.
- Integrated multiple public space **APIs** (Spaceflight News API, NASA APOD) to aggregate rocket launches and mission updates into one feed.
- Tech: React Native (Expo), React Navigation, AsyncStorage

Urja Sync – Renewable Energy Management *(2025)* Live Github

- Built a full-stack MERN dashboard solo, consolidating monitoring for **4 renewable source** types (solar, wind, hydro, biomass) into a single platform.
- Designed **JWT**-based authentication with role-based access control and a **MongoDB** schema/**REST API** supporting full **CRUD** plant management.
- Tech: React.js, Node.js, MongoDB

Technical Skills

- **Languages:** C++, C#, JavaScript
- **Web Development:** React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS
- **Database:** MySQL, MongoDB, PostgreSQL, Neo4j (Graph DB)
- **Tools & Technologies:** Git, GitHub, RAG, GraphRAG, LLMs, Unity Engine
- **Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming, REST API Design, Operating System, DBMS

Certifications

- The Complete Full-Stack Web Development Bootcamp - Udemy — *Feb 2026*
- AWS Academy Cloud Foundations — *Mar 2026*
- React Native - Infosys Springboard — *Apr 2026*
- Unity Essentials Pathway — *Nov 2025*

Extra - Curricular Activities

- Core Committee Member, CSI KKWIEER — *Jul 2025 – Present*
- Internshala Student Partner — *Aug 2025 – Nov 2025*
